Product	Term (Months)	License Key	Serial Number

What you need to do

Follow the steps below to activate your license. The steps depend on whether you're installing for the first time or renewing or adding subscriptions.

New installation

You need to register every new Firewall, Firewall Manager or iView. If we've sent you license keys, you also need to apply those.

The setup process will ask for your serial number and/or license key. You can only use each of them once. The steps are:

1. Go to www.sophos.com/mysophos and sign in. If you don't have an account, click **Create Sophos ID** and set one up first.
2. In MySophos, if you purchased Virtual or Software products, go to **Network Protection > Download Installers** and download your installer.
3. Run the installer. At the **Register Your Firewall** page, click **Continue**. For Virtual or Software installations, you'll be asked to enter the Serial Number.
4. If you have any license keys to activate, see the Renewals or new subscriptions instructions below.

Renewals or new subscriptions

In the Firewall, go to **System > Administration > Licensing** and click **Activate Subscription**. Then enter the license key.

Other ways to activate your license

You can activate your license in other ways, for example without access to the appliance. See https://support.sophos.com/support/s/article/KB-000035521?language=en_US.
